

Professional Services Advisory Launch Assistance

Ping's Launch Assistance package is designed to augment the world-class assistance you receive from our global technical support organization by providing dedicated help from our professional services team during your critical initial go live period. Your Ping consultant will assist with any questions or issues that arise, as well as work closely with Ping technical support to help expedite resolution.

Used either as a standalone package or in conjunction with other Professional Services Advisory offerings, we will provide expert guidance and assistance to support your team during the first week of operation.

You'll rest easier knowing you're supported by experts who can help you:

- Provide dedicated professional services assistance during Go Live
- Facilitate knowledge transfer and coordinate closely with Ping Identity technical support
- Facilitate knowledge transfer and coordinate closely with Ping Identity technical support
